DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 8 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Birch et al (Birch).

Birch's Figs. 8 and 9 and claim 1 clearly discloses both apparatus and a method for digitally synthesizing a waveform having a plurality of successive portions wherein each portion can be as short as one cycle and at least one of frequency, phase and amplitude of successive portions vary.

Allowable Subject Matter

3. Claims 3-7 and 10-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
